

MAJESTICS
RELOCATION PTY LTD
WE THINK OUTSIDE THE BOX

office relocations & fitouts

From start to finish Majestics Relocation will move staff, workstations office furniture shelving and storage units. From packing to cleaning and rubbish removal we work closely with project managers and company management to ensure each job is completed to the clients requirements. Majestics have worked with leading sports clubs relocating their fitness equipment.

workstation specialists

Majestics Relocation specialise in installing workstations new and used. Majestics will disassemble relocate and reassemble workstations. We work with Project Managers and Facility Management as well as all trades on site to ensure that workstations are placed and installed according to the clients specifications.

project management

At its most fundamental, project management is about people getting things done. Project management is chiefly associated with planning and managing change in an organization. Lindsay Houston has a strong background in project management planning and assessing options, organizing activities and resources to deliver a successful result
